NOVELTY - An extension cord and a tap (4) for power supply are provided in chest (1) which has a cord reel (2). A socket attached to the core of the cord reel and a plug attached to the extension cord enables removal and attachment of cord reel and extension cord, respectively.

USE - For tools.

ADVANTAGE - Power supply is secured simply. Accident through electric leakage is prevented carrying cord reel and extension cord is eliminated. Power supply is made available whenever required. Charging battery in site becomes simple. DESCRIPTION

DRAWING(S) - The drawing shows prospective view of the chest with cord reel. (1) Chest; (2) Cord reel; (4) Tap. (4pp Dwg.No.1/3)
